**JAMES CATLEDGE PERSONALLY DELIVERS FUNDS TO HELP FUND  
TROPICAL STORM NOEL RELIEF EFFORTS**

**Net Worth Solutions Associates and the Impact Foundation Join Catledge  
in Contributing to Relief Efforts in the Dominican Republic**

**Dominican Republic, December 2, 2007** - James Catledge, president and CEO of Net Worth Solutions will travel to the Dominican Republic to personally deliver a check for over \$40,000 to the Red Cross on Sunday, December 2. These funds were raised by Catledge and his fellow colleagues to help rebuild and provide housing for families displaced after tropical storm Noel devastated the Dominican Republic in November.

Catledge personally donated \$10,000 to relief efforts immediately after hearing about the devastation in the area and quickly sent a call to action to Net Worth Solutions associates. "Everyone at Net Worth Solutions is committed to helping rebuild the damage done by this storm," said Catledge. "Our associates have come to love the people of this county while we have conducted business here during the past five years. As a company, Net Worth Solutions is focused on helping worth causes around the world."

His fellow Net Worth Solutions colleagues joined him by donating funds to the Impact Foundation, a non-profit organization that raises donations to help fund humanitarian causes around the globe. After tropical storm Noel hit the Dominican, the Impact Foundation made relief efforts its top priority, urging all members of Net Worth Solutions to support relief efforts.

Net Worth Solutions works directly with Sun Village Resort & Spa and Maxim Bungalows in the Dominican Republic and has 15 associates that work in the area. Though neither the resort, nor any associates were affected by tropical storm Noel, the company's connection with the region has encouraged Catledge to take action to ensure the reconstruction of the area and the ultimate aid of those affected by the storm.

**About Net Worth Solutions**

In 2003, James Catledge launched Net Worth Solutions, a unique grass-roots enterprise dedicated to the mission of building net worth for families. Through

countless speaking engagements and events, Catledge has spread his message to thousands of American families, sharing his experience and expertise in real estate investment.
