**JAMES CATLEDGE AND NET WORTH SOLUTIONS
PRESENTS "REAL ESTATE SECRETS OF THE WEALTHY"**

San Jose, California— Achieving financial success might just be as easy as one, two, three. On October 9, 2007, James Catledge, President and CEO of Net Worth Solutions, will present to the San Jose community the three secrets to building net worth in his presentation, "Real Estate Secrets of the Wealthy."

After researching hundreds of case studies and spending 15 successful years as a financial planner, Catledge determined that real estate investment is the cornerstone for financial success among the wealthiest in the country. His own personal success in real estate helped him identify how leverage, risk and structure guided his financial choices. These key components to successful real estate decisions will help ordinary American families gain the same increased net worth as the wealthy.

"I developed this concept and presentation to help families avoid the common pitfalls real estate investors make and to help them understand how important the right real estate products are to developing and maintaining net worth," said Catledge. "Anyone who joins us for this presentation will leave understanding how they can gain the same financial success as some of the wealthiest people in the country."

Real estate and hospitality entrepreneur, Derek Elliott, will join Catledge to discuss how he utilized the three steps to maximize his personal real estate portfolio and increase net worth through leadership of his own company, Elliott, the dynamic parent company of Sun Village Resort & Spa and Maxim Bungalows in the Dominican Republic. Elliott has led the way in the Dominican hospitality and real estate industry for more than 18 years.

The presentation is free of charge and open to the public. Pre-registration is required.
