JAMES CATLEDGE STARTS MARKETING COMPANY NET WORTH SOLUTIONS

Las Vegas Nevada: January 9, 2003 James Catledge starts marketing company Net Worth Solutions. After a very successful career with financial service giant, Aegon, James Catledge decided to start a company that he could own and control. After the stock market crash in 2001, record consumer debt by Americans and historically low interest rates, James Catledge saw the need and opportunity to create an independent company that would teach people how make correct decisions about money and build their net worth. According to James Catledge, many financial companies such as insurance companies and securities firms have a biased approach to educating clients about financial choices because they create the products they are marketing. James Catledge believes that most will make the correct decisions about their net worth if they have information about products and learn the concepts and strategies that the wealthy have used over time.

James Catledge has a successful track record of leading, training and building marketing teams. As the youngest Field Vice Chairman, Board Member, and million dollar earner at his previous company, James Catledge has the knowledge and vision necessary to create a company focused on building the net worth of families. James Catledge has developed a unique tracking and training program which he calls the Impact Certified Training Program. Part and full time Net Worth Solutions associates can earn promotions based on their efforts in helping others build net worth. After proper licensing, Net Worth Solutions associates, can earn while they learn under the tutelage of James Catledge and other Qualified Marketing Advisors. Committed to making a difference in the lives of others, James Catledge will lead the mission of Net Worth Solutions of increasing net worth for families through a disciplined and systematic approach that is based on education and math.

James Catledge personally founded Net Worth Solutions in January 2003 after a very successful carrier with World Financial Group (WFG. His focus is to lead a revolution on teaching families about how money works and how financial independence is within reach of anyone willing to follow his proven system. James Catledge is a master teacher in all facets of financial planning. He holds a degree in communications from Brigham Young University. He currently resides in the exclusive community of Lake Las Vegas in Henderson Nevada with his wife Tiffany and their 6 children.
